

## Short description of the 17 Global Goals

### **Global Goal 1 - No Poverty**

There are still far too many people in the world living in poverty. The goal No Poverty is about eradicating poverty by 2030.

### **Global Goal 2 - Zero Hunger**

There are still too many people in the world starving. The goal Zero Hunger is about making sure no people are hungry. The goal is to ensure that all people around the world get food that is healthy and nutritious. The goal applies throughout the world, including India and Denmark.

### **Global Goal 3 – Good Health and Well-being**

Both children and adults must live a healthy and good life. The goal is to ensure that everyone can come to the hospital and get medicine if they should become ill. The goal applies throughout the world, including India and Denmark

### **Global Goal 4 - Quality Education**

Everyone must have access to school and a good education. With a good education, one can help to achieve all the other Global Goals. All countries must work for Global Goal 4 - We must do the same in India and Denmark.

### **Global Goal 5 - Gender Equality**

Girls and boys must have the same rights and opportunities. Both girls and boys must be able to go to school and have an equal right to education and to a good life. This is what Global Goal 5 is about and it applies all over the world.

### **Global Goal 6 - Clean Water and Sanitation**

All people must have access to clean drinking water. Everyone must also have access to good toilets. Without clean water you can get sick. That is why it is important to save water so that we also have clean water in the future. This also applies in India and Denmark.

### **Global Goal 7 – Affordable and clean energy**

It is important that all people around the world have access to good and stable energy. And it must be energy that does not pollute and harm our world. It is important that we also think about this in India and Denmark.

### **Global Goal 8 - Decent work and Economic Growth**

It is important to feel good, even when you are at work. The goal is for everyone to have access to good jobs. It is also about creating growth so that there is enough money to give everyone a good life.

### **Global Goal 9 - Industry, Innovation and Infrastructure**

These are difficult words. But it is about making a smart world, where you can get around in a good way and where you can make smart inventions that provide a better and more sustainable world.

### **Global Goal 10 - Reduced Inequality**

The goal is to make the difference between rich and poor countries smaller. It is about helping the poor countries to get richer so that those who live there can have a good life. It is also about making the difference between rich and poor people smaller in each of the countries of the world.

### **Global Goal 11 - Sustainable Cities and Communities**

It is about making sure the cities of the world are a safe place to be. There must be room for everyone, and we must take good care of the environment everywhere. It is also about polluting less, so it is still good to live in the cities in the future.

### **Global Goal 12 - Responsible consumption and production**

When making new products, you have to think about taking care of the environment. It is also about reusing your things so that you do not throw out too many things. It is about thinking carefully before buying new goods and reusing as much as possible of what you no longer need.

### **Global Goal 13 - Climate Action**

It is about all of us helping each other to take good care of the climate and do everything we can to take care of the earth so that the earth is also a good place to live in the future.

### **Global Goal 14 - Life below water**

Life at sea is really important to us humans. The sea algae provide oxygen to the air and many people feed on fish, shellfish and squid. We must be careful not to pollute the sea with plastic, oil and other dangerous substances.

**Global Goal 15 - Life on Land**

We must take good care of nature everywhere in the world. We must stop chopping down so much forest and destroying nature. And then the soil must be cultivated so that it is not destroyed and contaminated. It is also about not throwing waste in nature.

**Global Goal 16 - Peace, justice and strong institutions**

It is about the world being a peaceful place to live. It is also about creating a world where there is room for everyone

**Global Goal 17 - Partnerships for the goals**

The last goal is about how to secure all the other goals. And you can only do that by helping each other and working together. We must all work together to achieve the 17 Global Goals.
